## Parent Guide for "Sin" Coloring Pages

Dear Parent/Grandparent: The major cause of death to our nations children is "Not knowing the difference between right and wrong". Sin kills. It starts small but in the end it kills. No parent can treat sin lightly...not even small sins. Nor can we label our children as "bad". The only path open to a child who feels like people think he is bad is to be "bad". **Good parents will catch their children being bad. Great parents will catch them being good and encourage them.**

The rules for warning children about sin are the same as warning them about playing in traffic, drowning, or playing with fire: "Don't do it. It will kill you and hurt the people around you." Your number one enemy in warning your children about sin is the network television. You tell your children sin is dangerous and your tv set tells them they can get away with it, that sin has no price tag. **If it seems like we are saying that network television is guilty of the deaths of tens of thousands of children and that only pbs is safe to watch maybe we are.**

A parents second enemy in the struggle to warn your children about sin is the wrong kind of friends. Our solution is to have your children's friends to your home to influence them BEFORE they influence your children. For the full set of 30 coloring pages see your Sunday School teacher or visit [www.bibleparent.com](http://www.bibleparent.com). How we pray that as you color this set of coloring pages with your children that God himself keeps you all safe and healthy.

For the next few weeks we will be sending home a coloring page focusing on Sin. **We hope you will color them with your child and put them on display in your home.**
